Education

M.Sc. in Data Science and Artificial Intelligence (DSAI)

University of Trieste, Trieste, Italy

Sep 2023 – Sep 2025

GPA: 110/110 cum laude

B.Sc. in Physics

Escuela Politécnica Nacional (EPN), Quito, Ecuador

Apr 2017 – Nov 2022

GPA: 26.10/30

Master in Data Management and Curation (MDMC, postgraduate)

International School for Advanced Studies (SISSA) and Area Science Park, Trieste, Italy

Sep 2025 – Jun 2026

Research

Master's Thesis, Laboratory of Data Engineering, Area Science Park

Mar 2025 – May 2026

- Visual instruction tuning aligns image and text in the intermediate layers of the model.
- **NeurIPS 2026, poster.** Luis Palacios*, Lorenzo Basile*, Diego Doimo, Alberto Cazzaniga (*equal contribution).
Visual Instruction Tuning Aligns Modalities through Abstraction. 📄

MDMC Thesis, Area Science Park

Nov 2025 – Jun 2026

- Generator for machine-learning services that share a structure, on Kubernetes. Working example: classifying scanning electron microscope images. 🐙 🔗
- Web app for storage and governance, deployed. 🐙 🌐 🔗
- **IEEE eScience 2026, not accepted.** The review wanted throughput experiments. 📄 🔗

Bachelor's Thesis, EPN

2022

- Earth and Sun magnetic spectra, separated by empirical mode decomposition. 📄 🐙

Coursework

- Networks that treat a rotated image as the same object. Group-equivariant CNNs. 🐙
- Whether a vision model's explanation survives an attack on the image. 🐙
- A walker and a humanoid, taught to move. SAC and TD3. 🐙
- Iterated prisoner's dilemma, with genetic algorithms. 🐙
- Sparse matrices, a C++ toolbox, and Python bindings. 🐙

Work Experience

Teaching Technician, EPN, Quito, Ecuador

May - Aug 2023

- Supervised physics lab sessions, reinforcing students' conceptual understanding and critical thinking.
- Assessed lab reports and provided feedback to improve scientific rigor and analytical writing.

Skills

Programming: Python, C++, Kubernetes, Bash, Git, Linux

Machine learning: PyTorch, Lightning

Languages: Spanish (native), English (C1), Italian (A1)

Extracurricular Activities and Achievements

Research & Study Fellowships — MDMC — Laboratory of Data Engineering; SISSA fee scholarship 2025 - 2026

Merit-Based Study Fellowship — DSAI — SISSA; Collegio Fonda (Trieste)

2023 - 2025

Vice-President of the Theoretical Physics Club 🐙, EPN

Nov 2021 - Mar 2023

- Organized physics and programming workshops and maintained club GitHub repositories. 🐙
